

CORPORATE GOVERNANCE REPORT

GOOD GOVERNANCE AND CONTROL SUPPORTS STABLE GROWTH

Betsson has developed strongly in recent years. One contributing factor to this profitable development has been a good balance between ambition and attention to detail. For our part, good corporate governance means preserving a dynamic, hungry company culture in which individuals are rewarded and shown appreciation for their efforts, and where risks are managed on a sound commercial basis. A company such as Betsson, which operates in a high-speed, dynamic environment, has to be able to respond quickly and, consequently, each employee has to be given the space to act on his or her own initiative, within a set framework. This is one good example of how sound internal control improves a company's commercial capabilities.

Pontus Lindwall
Chairman of the Board of Directors

THE BOARD OF DIRECTORS AND ITS WORK

The Members of the Board are elected annually by the Annual General Meeting for the period until the conclusion of the following Annual General Meeting. There are no rules in place

stipulating the maximum period of time a member may serve on the Board. Betsson's Board is comprised of six members elected by the Annual General Meeting, with no deputies. The CEO is not a member of the Board. At the Annual General Meeting 2013, the following individuals were re-elected as Board Members: John Wattin, Kicki Wallje-Lund, Patrick Svensk, Carl Lewenhaupt, Lars Linder-Aronson and Pontus Lindwall. Pontus Lindwall was re-elected as Chairman. In conjunction with the Annual General Meeting, Per Hamberg resigned from the Board of Directors and retired. Pontus Lindwall cannot be considered independent in relation to the Company, given his role as working Chairman of the Board. With this composition, Betsson's Board fulfills the regulations for listed companies and the regulations of the Swedish Code of Corporate Governance, which require that the majority of elected members are independent of the Company and Company management, and that at least two of these are also independent of the Company's major shareholders. All Board Members and all members of the Group management team have undergone NASDAQ OMX's training in Stock Exchange regulations.

Information provided to the Board of Directors
The work of the Board follows a specific plan, in order to ensure that the Board receives all relevant information. The Company's

auditors report their observations based on the audit of the financial statements and their assessment of the Company's internal procedures and controls to the Board. The Board receives, on a monthly basis, a detailed operational report in which management describes developments.

Internal control and risk management

The Board applies a formal work plan including decision-making rules, as well as instructions for its own work and that of the Remuneration Committee, the Audit Committee and terms of reference to the CEO, with the aim of achieving an efficient management of the operational risks; refer to the section on significant risks and factors of uncertainty in the Management Report. The Board updates, as necessary, and adopts, yearly, the formal work plan for the Board, terms of reference to the CEO, decision-making rules and authorization routines.

The Audit Committee

The Audit Committee's responsibility is to ensure compliance with established principles for financial reporting and internal controls. In accordance with the work plan adopted for the Board after the Annual General Meeting 2013, the Audit Committee will continue to comprise three members, none of whom is to serve as Chairman of the Board. The members of the Committee are Lars Linder-Aronson (Chairman), Kicki Wallje-Lund and Carl Lewenhaupt.

The Audit Committee is responsible for monitoring and following up the reporting of Corporate Responsibility issues. The Audit Committee also fulfills the functions of a finance committee, with the task of supporting and following financial operations and of evaluating and proposing amendments to the Treasury Policy. The results of the Audit Committee's work in the form of observations, recommendations and proposals for decisions and measures to be taken are addressed by the Board on a continual basis. The Group's auditors and the CFO present reports to the Audit Committee. Attendance at the Audit Committee's four meetings during the year was 91 per cent.

The Remuneration Committee

After the Annual General Meeting 2013, a new formal work plan for the Board was adopted, in which it was determined that the Remuneration Committee should comprise three members, none of whom is to serve as Chairman of the Board. The Committee's members are Kicki Wallje-Lund (Chairman), Patrick Svensk and John Wattin. The Remuneration Committee held two meetings during the year. The main topic addressed at these meetings was the proposed new incentive program (employee stock options/warrants).

The main responsibility of the Remuneration Committee is to address the remuneration and terms of employment of the CEO and the executives reporting directly to the CEO, based on the guidelines for remuneration and terms of employment for the CEO and other senior executives adopted by the Annual General Meeting. Attendance at the Remuneration Committee's two meetings during the year was 100 per cent.

CEO AND GROUP MANAGEMENT

Betsson's President and CEO is responsible for the day-to-day management of both the Parent Company and the Group, a responsibility which does not include decision-making in operating online game activities.

The CEO leads the work in the Parent Company and makes decisions in consultation with the other senior executives comprising the heads of business areas and staff functions. At the end of 2013, there were four (four) Senior Executives; refer to the section on Senior Executives on page 18. At the time of publishing, there were five Senior Executives, one of whom was female.

The Senior Executives hold regular operational reviews under the leadership of the CEO.

The operations of the Parent Company (Betsson AB) consist of the management and administration of the Company's investments and the evaluation of potential acquisitions or divestments of business operations. The Group's gaming operations are conducted in Malta, through several wholly-owned subsidiaries, each of which has a separate Board working under an operative management team making the operational decisions for Betsson's gaming operations.

Terms of reference have been established for the respective CEO of each wholly-owned subsidiary. These terms are consistent with the terms of reference to the Parent Company's CEO.

REMUNERATION

Remuneration to the Members of the Board and the guidelines for remuneration to senior executives are determined at the Annual General Meeting. Remuneration paid to the President of the Group is determined by the Remuneration Committee. Remuneration for executives directly subordinate to the CEO is determined by the CEO after consultation with the Remuneration Committee. The Group applies the principle that a manager's superior must approve any decisions regarding remuneration.

The following principles, adopted at the Annual General Meeting 2013, apply to senior executives in the Group:

- Remuneration is to be market-based and competitive, in order to be able to attract and retain competent senior executives. Remuneration is to be comprised of a fixed salary and, where applicable, variable remuneration, pension and other benefits, such as, in certain cases, a company car.
- Any variable remuneration which may be offered to senior executives will be decided on the basis of pre-determined Group-wide and individual goals relating to the management of the Company and the Company's financial development, and taking into account the personal development of the individual concerned. Current variable remuneration to senior executives is described in more detail in Note 8.

The Board may take decisions diverging from these guidelines for individual instances, under special circumstances.

AUDIT

At the Annual General Meeting 2013, PricewaterhouseCoopers AB was re-elected, with Authorized Public Accountant Michael Bengtsson as Auditor-in-Charge.

Michael Bengtsson has been an Authorized Public Accountant since 1988. His other engagements include Haldex, Bure, Indutrade and Carnegie.

The audit of the annual financial statements is carried out in January-February. The audit of the annual report takes place during March-April. The Company's interim reports are also subject to review by the auditor. In addition, audits of the internal procedures and control systems are undertaken continuously during the year and reported to the Group's CFO, the management team and the Board.

In addition to the auditing assignment, Betsson has engaged PricewaterhouseCoopers AB for consultation in VAT and tax issues, accounting matters, and for various other studies.

INTERNAL AUDIT

Betsson's profitable growth stems from a willingness and desire to constantly improve the operations. The Internet-based gaming industry is constantly exposed to a rapidly changing environment, such as changes in legal systems, seasonality and

currency fluctuations. In order to be able to manage these situations, it is of great importance that the Group can learn and adapt, but, at the same time, it is vital that Betsson's customers feel safe and secure with Betsson's gaming and payment solutions. This permeates all Company and Group customer offerings.

Betsson did not have a separate internal auditing function in 2013 but, instead, decided to execute the internal audit function through its existing organization. The Board of Directors and the Audit Committee have resolved to establish a separate internal auditing function during 2014. In 2012, the Company appointed a Global Tax Manager in order to further ensure that the Company complies with applicable tax regulations. In 2013, the internal control was further strengthened by means of the establishment of a separate business controller function, responsible for, among other things, budgeting and follow-up processes.

As a complement to the Group's own internal auditing activities, operations are also monitored by several independent parties. Betsson is licensed in Malta by the Lotteries and Gaming Authorities (LGA). In order to obtain and maintain licenses, the Company's routines and processes must meet certain quality standards. LGA scrutinizes operations in order to ensure that the Company meets all of the requirements. Betsson's companies are also PCI-compatible for secure card transactions, and cooperate with several large banks. As a result, all credit card information is handled securely and the Company meets the highest security standards as regards payments, withdrawals and deposits.

All private information transferred to and from Betsson sites is encrypted by Verisign SSL and is monitored 24 hours a day, 7 days a week. The random number generator behind Betsson's casino games, which guarantees equitable gaming, has been tested and approved by independent third parties, including Itech Labs, Gaming Laboratories International (GLI), Quinel, and eCogra. In order to ensure that the poker software always produces random numbers, independent controllers test the random number generator (RNG) on a monthly basis. These monthly reports are published on an ongoing basis. Certain players cheat by using "poker bot" programs to make decisions during the game. Betsson has secured the poker table against the use of these programs via Botguard; this is so that players can feel secure and confident that they are playing under the same technical conditions as all of the other poker players.

The Audit Committee bears the preparatory responsibility within the Board to ensure compliance with the established principles of internal control. The President and CFO are responsible, on a continuous basis, for taking appropriate steps to maintain good internal control. Each Company function is responsible for executing the internal control within its relevant operational area, based on stated conditions. Reports are prepared on an on-going basis at all levels.

SYSTEM FOR INTERNAL CONTROL AND RISK MANAGEMENT REGARDING FINANCIAL REPORTING

In accordance with the Annual Accounts Act, the Board of Directors is to submit, on an annual basis, a description of the most important measures in the Company's system for internal control and risk management regarding financial reporting.

Control environment

The control environment is the basis for the internal control of the financial reporting. The Company's internal control structure is based on, among other things, a clear allocation of responsibilities and work assignments, both between the Board and the CEO, and within the operations. Policies and guidelines are documented and assessed on a continuous basis by management and the Board. Governing documents and detailed process descriptions are communicated via established information and communication channels and have, consequently, been made available and known to the personnel concerned.

Risk assessment

The Company identifies, analyses and takes decisions regarding the management of the risk of misstatement in the financial reporting. The Board deals with the outcome of the Company's processes for risk assessment and risk management, in order to ensure that these cover all significant areas, and identifies, when appropriate, any necessary measures to be implemented. The Company's largest operational risks are related to the rapidly evolving environment characterizing the gaming industry, including, for example, changes in legal systems, seasonality and currency fluctuations. The financial reporting can be influenced by the risk of errors in periodization when settling accounts with partners and the risk of errors in the valuation of intangible assets.

Control measures

On the basis of risk assessments carried out within the Group, control measures of both a preventative and of a detective nature are implemented, to ensure that any errors are addressed. We have placed a special emphasis on mapping and assessing the most significant risks in the accounting practices as regards periodization. Intangible assets are assessed on a continuous basis against the return they generate, in order to ensure that the values reported in the Company's balance sheet are correct.

Information and communication

The internal information and external communication are regulated at a comprehensive level by, among other things, an information policy. The internal communication to and from the Board and management takes place via, for example, regular information meetings.

The Company's intranet is another channel. The internal policies, guidelines, instructions and similar documents governing and supporting operations are published on the intranet.

Follow-up

The Company assesses, on a continuous basis, the internal control regarding financial reporting by asking questions and participating in the work of the finance function. Both Company management and the Board receive daily sales reports and monthly income statements and cash flow reports, including management's comments on the development of the operations. The financial situation is addressed at each scheduled meeting of the Board. The Company's auditor participates in the Board meetings at least once a year and shares any observations regarding practices and control systems. During this meeting, the members of the Board have the opportunity to present questions. The Board re-evaluates the significant risk areas and assesses the internal control on an annual basis.

INVESTOR RELATIONS

Betsson shares information with shareholders by means of annual reports, arranged capital market days, year-end reports, quarterly reports, press releases and through the Company's website. Reports and press releases from previous years are also available on the website, www.betssonab.com.

Communication and transparency are key to Betsson, to allow the Company's investors and analysts to make objective assessments of the Company's development and, consequently, take informed decisions in their work. The Company attaches great importance to investor relations, in which the aim is to inform the capital market of Betsson's financial position, operations and development so as to increase knowledge and interest in the Company, and to obtain a fair valuation of the Company. During 2014, Betsson has arranged a capital market day and, also, during 2013, participated in a number of IR activities, such as seminars, investor meetings and road shows in both Europe and the USA.
